Abstract

Arogya Milk is a popular toned milk brand marketed by Heritage Foods. It is known for providing high-quality, pasteurized milk with standardized fat content, making it suitable for daily consumption across households. The milk undergoes strict quality control processes, including pasteurization and hygienic packaging, to ensure safety, freshness, and nutritional value.

Keywords

Arogya Milk is a popular dairy product from Karnataka Milk Federation, marketed under the well-known Nandini brand.

Introduction

Customer satisfaction is a critical factor for the success and sustainability of any business, especially in the Fast-Moving Consumer Goods (FMCG) sector like dairy products. Arogya Milk, a well-known brand in Tamil Nadu, has established a strong presence by delivering quality dairy products to consumers. This study focuses on understanding the level of customer satisfaction among Arogya Milk consumers in Madurai City. By assessing factors

Objectives

- To evaluate the level of customer satisfaction towards Arogya Milk products in.

Special Issue - Innovative Commerce: Bridging Business and Computer Applications (ICBBCA-2026)

PG Department of Commerce with Computer Applications, Mannar Thirumalai Naicker College, Madurai – March 2026

- To analyze factors influencing customer satisfaction, including quality, price, availability and packaging.
- To identify the preferences and buying behavior of Arokya Milk customers.
- To assess the impact of customer service and delivery on satisfaction levels.

Research Methodology

1. Research Design

Descriptive research design was adopted to understand customer satisfaction levels and factors affecting it.

2. Data collection

- Primary data was collected through structured questionnaires administered to Arokya Milk customers in Madurai.
- Secondary data was gathered from company reports, articles, and previous studies.

3. Sampling Method

Convenience sampling was used to select 100 respondents from different parts of Madurai City.

4. Data Analysis

Data was analyzed using descriptive statistics such as percentages and averages. Graphs and tables were used to represent findings visually.

Data Analysis

Table 1: Age Wise Classification of the Respondents

Age	No of Respondents	Percentage
Below20	30	30
21-30	30	30
31-40	20	20
41-50	10	10
Above50	10	10
Total	100	100

Source: Primary Data

Fig 1: Primary data

Suggestions and Recommendations

- Improve product availability by strengthening distribution networks in underserved areas.
- Regularly monitor and maintain product quality to meet customer expectations.

- Implement competitive pricing strategies and offer occasional discounts to enhance customer loyalty.
- Enhance customer service, including timely delivery and complaint resolution mechanisms.
- Introduce new product variants based on customer preferences and feedback.

Conclusion

The study reveals that customers in Madurai City generally express satisfaction with Arokyamilk's quality and packaging. However, there is room for improvement in availability and customer service. Addressing these areas will help Arokyamilk strengthen its market position and foster greater brand loyalty. Regular assessment of customer satisfaction and responsive strategies will be key to maintaining competitive advantage in the dairy industry.
